

## Facilitated by Jean L. Eaton

*When we know better, we can do better...*

Jean Eaton is constructively obsessive about privacy and confidentiality in the healthcare sector.

I assist healthcare providers, clinic managers, practice managers, privacy officers, and independent healthcare practice owners with practical privacy awareness training and tools that are easy to implement, consistent content, cost-effective, and meaningful to your day-to-day business.

Jean L. Eaton, BA Admin (Healthcare), CHIM, CC is the Practical Privacy Coach and Practice Management Mentor of Information Managers Ltd.

She is an experienced leader in health information management. She has worked with multi-disciplinary health care service professionals in primary, acute, and tertiary care facilities across Canada.

Jean has successfully assisted primary care physicians, chiropractics, pharmacists, podiatrists, primary care networks, and other health care providers to develop privacy impact assessments (PIA) and office policies and procedures and training regarding the collection, use, and disclosure of health information.

If you would like to discuss how I can help your practice, just send me an email. I am here to help you.
